Workplan of Skills Development Network through South-South cooperation 2021-2022

10 November 2021

Visit us at: ilo.org/chinaprogramme

► Networking is Power

Objectives : Increased partnership among skill development center, TVET and private entrepreneurs in national, regional and global

Expected results: Improved TOT, curricula development and exchange of trainers and trainees

Expected results: Provides a platform for policy cohesion, coordination, research and skills development between its members of the Network

► Network objectives and expected results (Cont.)

Expected results : Promotes evidence-based skills development and employment service policy recommendations that will improve employability, including quality assurance, standards development etc.

Expected results : Strengthen coordination and cooperation with businesses and industries to promote quality apprenticeship, reskilling and upskilling, with high quality and responsiveness to labour market demand.

Expected results: knowledge exchanges in the domain of skills development and facilitates mutual learning and innovations through sharing of good practices on skills for employment programmes through SSC.
