Geneva  
20-22 February 2013

**Draft**

**Suggested Points for discussion**

1. What have been the effects of the economic crisis and other crises since 2000 on civil aviation, what difficulties did the industry undergo due to the structural change, and how have low-cost carriers affected the industry as a whole?
2. What are the most important occupational safety and health issues and how could they best be addressed?
3. What should be done to promote social dialogue in the civil aviation industry, in order to ensure that civil aviation can attract and retain the workforce it needs and provide decent work, and to contribute to a more sustainable industry?
4. Recommendations for future actions by the International Labour Organization constituents and the International Labour Office.
